How Does One Surrender All?

There are those that know. And they know that they know.

I receive some very interesting phone calls.

I received an interesting question. Someone asked me why it matters what they do, as long as they are 'awakening'?

They asked me why people like Gandhi and Mother Teresa were involved in good doing instead of realizing that they were Omniscient Reality, no good or bad. I had to laugh.

This is a complete misunderstanding. This person was confused. You must be very care-

surrender.

There is nothing of their little self to speak of left.

Now, what would make a person do this?

It is so far from our Western way of thinking.

It is so far from most spiritual peoples way of thinking. How does one feel so aware within, that they put themselves last and put God first? That they surrender all to become selfless?

There are two ways.

The first way is that this person has already become very selfless before. They have had deep realizations before. They have learned what selfless love is. What selfless compas-

ful. You can become lost in selfishness, and think you are spiritual. If this person were able to realize one iota of the consciousness of a Ghandi or Mother Teresa in the next thousand centuries, they will be lucky.

For you see, this brings us into the teaching of samskaras.

As I have said, to achieve a lifetime like these saints, where you no longer put your human self first, to have surrendered everything completely to God, to love God so much that you surrender your humanhood for others, is very rare on this earth.

It is true that you can decide this very moment to do this. Yet hardly anyone does. Now there are those that know. And they know that they know. They see Truth and they recognize it. They see someone like Mother Teresa and they know that this is a life of the SELF, that is, a life of complete

sion is. Perhaps they made a great decision before, of great sacrifice.

And they became Illuminated. Free from this bondage of the little self. So they have previous tendencies towards saintliness, good qualities pre-established. These are your samskaras, tendencies that you do not know how they got there. Why you are an artist, a musician, a banker a lawyer.

Some have samskaras of anger. Some of compassion. Some of tender hearts. Some of repulsion to unhealthy things. Some of
